Product identifier	LuciClear Casting Resin	
Recommended use and	Casting and Embedding Epoxy	
restrictions on use.		
Details of manufacturer	Boatcraft Pacific Pty. Ltd.	
	14 Dulwich St., Loganholme Qld 4129. Australia	
	+61 7 3806 1944	
	www.boatcraft.com.au	
Emergency Phone	Poisons Information Line 13 11 26	
Number	Boatcraft Pacific +61 7 3806 1944	

Section 1. Identification.

Section 2. Hazard(s) Identification.

Classification of the hazardous chemical Skin Irritation - Category 2. Eye Irritation - Category 2A. Skin Sensitizer - Category 1.

WARNING

Causes skin irritation. Causes eye irritation. May	Wear protective gloves/protective clothing/eye	
cause an allergic skin reaction	protection/face protection. Avoid breathing	
	mist/vapour/spray. Avoid release to environment.	
Take off contaminated clothing and wash before reuse. IF ON SKIN: Wash with plenty of soap and water. IF IN		
EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so.		
Continue rinsing. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for		
breathing. Call a POISON CENTRE or doctor/physician if you feel unwell. If skin irritation or rash occurs or eye		
irritation persists get medical attention		

Section 3. Composition and Information on Ingredients.

Name	Cas No.	Proportion
Epoxy resin (number average molecular weight \leq 700)	25068-38-6	> 60%
Bisphenol F - EpoxyResin	28064-14-4	< 30%
Hexanedioldiglycidyl ether	16096-31-4	< 30%
Oxirane, mono[(C12-14-alkyloxy)methyl] derivs	68609-97-2	< 30%

The composition of our products varies from time to time for technical and commercial reasons. Not all of the listed ingredients are present in any specific product, although any of them could be present. The classification and risk data and information covers all the possible ingredients.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Section 4. First Aid Measures.

Inhalation	IF INHALED. Move to fresh air. If rapid recovery does not occur, seek medical attention.
Ingestion	IF SWALLOWED : Drink water. Emergency treatment is unlikely to ne necessary. Call a POISON CENTRE or doctor/physician if you feel unwell.
Eye Contact	IF IN EYES : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Seek medical advice/attention.
Skin Contact	IF ON SKIN : Wash with plenty of soap and water. Citrus based hand cleaner with pumice is useful. If skin irritation occurs: Seek medical advice/attention. Take off contaminated clothing and wash before reuse.
Note to Physician	No particular measures are known – treat according to symptoms.

Extinguishing Media	CO2, extinguishing powder or water fog or fine spray. Fight larger fires with water fog or fine spray or alcohol-resistant foam	
Specific Hazards	Formation of toxic gases is possible during heating or in case of fire.	
Fire Fighters	Put on breathing apparatus if material is involved in fire.	
Hazchem Code	2YE	

Section 5. Fire Fighting Measures.

Section 6. Accidental Release Measures.

Small Spills	Absorb spillage with sand, sawdust, earth, or any suitable absorbent material.
Large Spills	Prevent material from entering waterways, drains or sewers. Consider bunding. Use sand or earth to absorb the material. Allow water content to evaporate and dispose of residual solid material as solid waste.

Section 7. Handling, Storage and Safe Use.

Handling	Use with adequate ventilation.		
	Vapour is heavier than air.		
	Use suitable protective equipment. Latex or Nitrile gloves are suitable.		
	Avoid contact with eyes, skin and clothing.		
	Eating, drinking and smoking in work areas is prohibited.		
Storage	Store only in original containers. Store away from food stuffs. Keep container tightly		
-	sealed.		
	Recommended temperature between 15°°C and 45°C.		
Suitable Packaging	High Density Polyethylene		
Materials			

Section 8. Exposure Controls.

Exposure Limits	Non specified for this product.		
Engineering	Use only with adequate ventilation.		
Controls			
Personal Protection	Safety glasses with side shields		
	Gloves. Latex and Nitrile are both suitable		
	Clothing which covers arms, legs and torso.		
	In case of inadequate ventilation, wear suitable respiratory equipment		
	Advice on personal protection equipment is applicable for high exposure levels.		
	Select proper personal protection based on a risk assessment of the actual exposure		
	situation.		

Section 9. Physical and Chemical properties.

Appearance	Liquid
Odour	Very mild
Specific Gravity	1
pH	No data
Boiling Point and boiling range (°C)	>200°C
Flash Point (°C)	>100C
Self-inflammability	Product is not self igniting
Danger of Explosion	Product is not explosive
Density	1.11 g/cm3
Vapour pressure (20°C)	Very low at 20°C
Solubility	Low water solubility.
Viscosity	700 mPas at 20C

Stability	Stable under recommended storage conditions.		
Reactivity	Masses of more than 0.5kg combined with an aliphatic amine will polymerise		
	with considerable heat build up. Larger quantities can get very hot.		
Conditions to	Temperatures above 60°C		
Avoid			
Incompatible	Oxidising agents, acids, bases, amines, mercaptans, lewis bases		
Materials			

Section 10. Stability and Reactivity.

Section 11. Toxicological Information.

Acute Effects	Mixture		
	Ingestion	LD50 rat >15000mg/kg	Very low toxicity if swallowed.
	Eye		May cause irritation. Corneal injury is unlikely.
	Dermal	LD50 rabbit 1200mg/kg	Irritant
	Sensitization		May cause sensitization by skin contact.
Long term Effects	If skin irritation or rash occurs: Get medical advice/attention. Has caused allergic skin reactions in humans.		

Section 12. Ecological Information.

Moderately toxic to aquatic animals. LDLo = 2mg/L Non toxic to algae. LDLo > 220mg/L Insignificant toxicity to microorganisms. LDLo > 42.6mg/L
Based on "STRINGENT OECD test guidelines" the material cannot be considered readily biodegradable, however these results do not necessarily mean that the material is not biodegradable under environmental conditions. Other tests show the material will degrade moderately quickly.
Moderate, BCF estimated to be 31 Moderate, Log Kow estimated to be = 3.24

Section 13. Disposal Considerations.

Dispose of all empty containers as per State and Council Regulations. Do not burn empty
containers or product. Do not bury product or empty containers. Do not dispose of near
waterways, vegetation and tree roots. Excess product can be mixed with an equal amount
of part A and disposed of as non hazardous solid waste when cured.

Section 14. Transport Information.

UN. No.	Not allocated		
Proper Shipping Name	Not applicable		
Class	Not classified as a dangerous substance		
Subsidiary Risk	Nil		
Packaging Group	Not applicable		
Hazchem Code	2YE		
EPG	Not applicable		
Segregation	Not applicable		
For road, marine and air tra	For road, marine and air transport this product is not classified as dangerous goods within		
the context of National and	the context of National and International Transport Regulation.		

Section 15. Regulatory Information.

Poisons Schedule (SUSMP) Schedule 5.

Section 16. Other.

Date of Preparation.	1 Dec 2018
Date of Revision.	8 March 2019
Reason for Issue	Change of Name. Ingredients
